

Coin Count Recording Sheet

Multiplication.com

Record the amount of change for each container.

Add the containers together for a total amount.

Container #	Amount
1	
2	
3	
4	
5	
6	
7	
8	
9	
10	
All containers added together	

1. If you added containers 3 and 4 together, how much money would you have?
2. What two containers have the closest amounts of change in them?
3. Which container has the largest number of coins?
Does this container also have the largest amount of money in it? Why or why not?
4. Choose any container. Write the number of the container here.
Draw the coins from the least to the greatest value.
