

Sweet & Salty Snickerdoodle Chex® Snack Times Three!

Try this fun recipe multiplied by 3! (answers at bottom of page)

$$\frac{1}{4} \times 3 = \underline{\hspace{2cm}} \text{ cup sugar}$$

$$1 \times 3 = \underline{\hspace{2cm}} \text{ tsp. ground cinnamon}$$

$$2 \times 3 = \underline{\hspace{2cm}} \text{ cups Cinnamon Chex® cereal}$$

$$2 \times 3 = \underline{\hspace{2cm}} \text{ cups Chocolate Chex® cereal}$$

$$4 \times 3 = \underline{\hspace{2cm}} \text{ cups popped popcorn}$$

$$\frac{1}{4} \times 3 = \underline{\hspace{2cm}} \text{ cup butter}$$

$$\frac{1}{4} \times 3 = \underline{\hspace{2cm}} \text{ tsp. salt.}$$

Mix sugar, salt and cinnamon in a small bowl and set aside. Mix the cereals and popcorn in a large, microwavable bowl. Pour melted butter evenly over cereal mixture. Mix well. Microwave uncovered on High for 1 minute. Sprinkle half of the sugar mixture evenly over cereal mixture; stir. Sprinkle the remaining sugar mixture over the popcorn and cereal. Stir and microwave 1 minute longer. Allow to cool before placing in snack bags or airtight container.

This recipe makes $16 \times 3 = \underline{\hspace{2cm}}$ servings. Each serving is $\frac{1}{2}$ cup. How many cups of Snickerdoodle Chex® cereal will you make? Please show and label your work:

Answers to multiplication problems: $\frac{3}{4}$ cup sugar, 3 tsp. ground cinnamon, 6 cups Cinnamon Chex® cereal, 6 cups Chocolate Chex® cereal, 12 cups popped popcorn, $\frac{3}{4}$ cup butter, $\frac{3}{4}$ tsp. salt; 48 total servings. 24 cups in all.
