Story

Many years ago, there was a giant who lived in a forest. People were afraid of him because he was so big. The lonely giant decided to go to the city to find some friends. During his journey to the city, he saw some construction workers putting up a new sign. The giant walked up to one of the workers and tapped him on the shoulder. When the man saw the giant, he dropped the sign. The SIGN (9) landed on the giant's SHOE (2) and his toe started ACHING (18).
